How will I

Three reasons to rely on

Referrals ONLYSM
real estate

#1 Line 'em all up!

Can you point out the good ones?

There are thousands of real estate agents. If you lined up all of them and someone asked you to “*Point to the good ones,*” *how would you score?* You really wouldn’t know the good from the mediocre. Some may talk a good game. Others might have delightful personalities. Some might be better dressed, better groomed or even better looking.

But which can really deliver?

Referrals ONLY Real Estate agent selection service provides you with the information you need to choose a real estate agent based on their professionalism, integrity and – most importantly – their verifiable track record.

#2

We have more clout.

Not only do we recommend the very best agents, but they have an even greater incentive to perform well when we recommend them. They want more referrals from us in the future, and while you individually represent a single *one-time* transaction to them, we could represent many transactions. And their ability to receive more referrals from us is dependent upon how they perform for you. They know we’ll be tracking their performance with you using our exclusive **EvaluRankSM** Monitoring System. That gives us more clout – and that gives you the assurance of the best service available.

#3

There’s no cost to you!

In the same way that you don’t pay for a referral when you call a physician or attorney referral service, you don’t pay for referrals from us. Agents pay Referrals ONLY Real Estate a small portion of their commission when they complete your real estate transaction.

How The Referrals ONLY Real Estate Process Works
