The Highest Per-Hour Income
In The Real Estate Business

Earn lucrative **SPARE-TIME** income... just for referring people you know when they buy or sell a home.

The Highest Per-Hour Income In The Real Estate Business

Top real estate agents nationwide pay referral fees when others recommend them to friends, family, and people you know from work, church or clubs.

The agents do all the work and you earn a referral fee while they take care of listing and showing homes. When the transaction closes, you can get paid for recommending them.

Sound easy? **It is.**

There's no need
to change jobs
and you don't
have to sell.

Yet after completing a one-time training course, you can earn the highest per-hour income in the real estate business. Imagine earning \$400, \$500 or even \$600 just for making an easy five minute phone call!

Referrals ONLY Real Estate offers you a practical alternative to jumping full-time into the real estate business. The only expense you initially incur is that of obtaining your real estate license (by law you must be licensed to be paid) and we'll help you with that.

We Eliminate Obstacles To Making Money In Real Estate

As a **Referrals ONLY** agent, there are no annual or monthly Realtor Association dues, no monthly MLS fees, and no lockbox costs.

Best of all, you can earn spare-time money in real estate and never have to spend your Saturdays answering the office phone, or holding open houses on Sunday, or commit your evenings and weekends to getting listings or driving buyers all over town.

Referrals ONLY Real Estate provides you with a unique opportunity in the real estate industry *without* quitting your job and *without* sacrificing your valuable family time. And should you ever decide to make real estate your full-time career, **Referrals ONLY Real Estate** is the perfect stepping stone since you'll have access to our placement service – absolutely free.
